*We can help your
student make the grade!*

The Learning Center, located in the Yorkshire Plaza, provides one-one-one tutoring in all learning areas. We focus on increasing the ability to learn by emphasizing the *how* of learning, as well as the content subject area.

Our staff is composed of certified teachers who are also trained in *visual learning*. This program integrates visual therapy procedures with learning skills. These strategies assist in improving the focus of attention as well as increasing comprehension and retention of material.

We use strategies and skills that enable students to become more effective and efficient learners.
